Dear Families,

Announcements:

Our class had 100% attendance in each of the last two weeks! Keep it up! Together we can win the November Attendance Challenge. We want Elvis to visit Room 101.

The Week Ahead:

Reading: Reading story- Interrupted Journey (with vocabulary and spelling words).

Math: We will be finishing up our unit on Geometry later this week. Our unit test will be either Friday or Monday!

Science: Students will be beginning their last investigation in our Variables unit.

Writing: Our class will continue to learn and practice what it means to answer in a complete sentence and how to write with excellence.

Social Studies: Rotations will continue with Mrs. Matrise and the study of early settlers.

Technology: Students are expected to work on the following items nightly: IXL (LA and Math), Xtramath, and entering their Reading Information onto the Reading Log site.

Students should also be logging in weekly to respond to the Weekly Blog questions! **These responses are expected to be completed at a 5th grade level and with educational excellence.** Please ask your child to see this blog. In fact, respond with them to this week's post!

Thank you for your continued support. Together, we will make tremendous gains and have the students of Room 101 prepared for middle school and beyond!

"Excellence in education is when we do everything that we can to make sure they become everything that they can." – Carol Ann Tomlinson

Have a great week!

Ray Bishop
